LG TV

LG Slow program guide

The best solution, as there seems to be nothing from LG , to create a Favourite channel,list with just the few needed, mine has 6 channels, once selected, the TV guide will use this and populate fairly quickly.

This storage device cannot be used for live playback.

It works with hard-drives only. I have tried different USB slots and different USB flashdisks. But only an external hard-drive works. Format as NTFS or Fat32.
